RE: Container Collection 10th February 2019

Envirobank will be at the club on Sunday 10th February to collect all the containers. Their collection van will not be at the club until 10.30, so if you have containers for collection, if you could please place them on the grass area, at the northern end of the club (behind the coffee van).

Please note, this is a donate only collection, point Envirobank doesn't have a payment facility. If you want to be paid for your containers, you will need to go to the depot at Narangba.

I will be advised later in the week, when our next collection will be, I have requested that it be fortnightly.
